BTC stays above \$6000, inches up with volatility.

After a strong pull back last week towards the \$6000 support levels, Bitcoin saw the price slowly rise with tiny rallies, sudden pull backs and equally strong buybacks. The behaviour has been arguably erratic, and poor in volume.

Ripple's legal battle comes to an end agreement.

R3, a distributed database technology company had an agreement in place since 2016 to buy 5 billion tokens of XRP at \$0.0085 per token until September 2019. Ripple claims the R3 vanished as a partner and wanted to end the contract early. [Source](#)

Gemini Dollar: Winklevoss twins gets green light on their own stable coin launch.

Whether the market has a need for it or not, this seemingly expensive exercise has been given the go ahead by the NY Department of Financial Services. Slow and steady wins the race. [Read More](#)
