

BLOCKMESA

Uneventful week as BTC slides lower towards \$6350.

Bitcoin has had a remarkably stable week. Staying within a \$150 range and only breaking down at the last moment. The ever important \$6000 support is getting closer and should prove interesting if the current downward trend continues.

Delta App 1.15 coming soon and packed with features.

Everybody needs an app to stay on top of their portfolio performance. Delta is an app we already like and the new update boasts with new charting for coins, scrubbing through charts & portfolios and a horizontal mode. [Link](#)

Bitfinex's second biggest market is USDT/USD, according to CMC...

CoinMarketCap is reporting on an endpoint available within the Bitfinex API and is displaying a rather large Tether/USD market. Bitfinex claims they do in fact not have a direct pair available on their exchange. [Link](#)
